

**Attention all St. Rita Parents: You are invited to a
FREE College Financial Planning Workshop...**

**"HELPING YOUR STUDENT CHOOSE
THE BEST COLLEGE WHILE
CAUSING THE LEAST DAMAGE
TO YOUR FAMILY'S FINANCES"**

This is an important workshop with much of the focus being on families who have junior or senior students. However, families that have freshman or sophomores will also benefit greatly by attending. Building upon the college counseling program that is already in place at St. Rita, we are excited to have long time college financial planner and 1978 St. Rita graduate, Mr. Patrick Kaiser, bring you this valuable information. In his 90 minute presentation, Mr. Kaiser will discuss the following topics:

- The inside secrets of how colleges decide who they admit and who they reject.
- How to have your student stand out versus everyone else during the admissions process.
- Haven't saved up enough to pay for college? It won't be as bad as you think as long as you follow these guidelines.
- How to attend a Private University at a Public College price.
- Colleges want to maximize their tuition revenue while families want to minimize what they have to pay out of pocket. How do you negotiate the best deal for your student?
- Private Scholarships: The key is knowing which ones give you the best chance to win.

Myth: You might think the students who receive the most financial assistance are the ones that have the most financial need.

Fact: The students who receive the most financial assistance are usually the ones who best understand the process.

Where: St. Rita High School Library

When: Thursday, January 14th at 7:00 pm

Seating is limited! Call now to make your reservation.
